

CPD Activity log

Preamble

The MPPB document defines CPD as a process or activity that enhances the professional's knowledge base and personal skills in order to be able to carry out one's duties with continued competence. This can be achieved by developing skills, knowledge and experience which were either not developed during the formal training or which need to be continually updated to reflect ongoing development in the profession of psychology and are not part of the routine work.

Mandatory CPD applies to *all* warranted psychologists who are in possession of a warrant issued by the Malta Psychology Profession Board.

CPD Requirements

The CPD document issued by MPPB stipulates that:

- CPD shall consist of *fifty* hours of CPD activity spread over *a two-year period* for those in fulltime professional practice *or its equivalent in part time practice*.
- In the case of psychologists working directly with clients a minimum of *twenty-five* out of the fifty must be supervision hours.
